Dear Hiring Manager,

I am a Junior Full-Stack Developer with a Higher Vocational Training in Web Application Development (DAW), focused on building web applications using technologies such as Laravel, PHP, JavaScript, SQL and REST APIs.

During my training and professional experience, I have worked on real-world projects involving both front-end and back-end development, database design and deployment. I also have experience in IT support, which has strengthened my problem-solving and technical skills.

I am motivated to start my career in web development, contribute to a professional team and continue learning and growing as a developer.

Thank you for your time and consideration.

Kind regards,

Mario Lopez
